Raised beds in the garden are available to gardeners! We have been given the go ahead for gardening this summer but we will need to continue to be

conservative with our water usage. Although having much more rain this year, the water company is charging significantly more for the water itself. My hope is that we can grow vegetables for personal use, church use, and for community services as well. If you are interested in having a garden plot here at church, please contact Doug Bailey at (650) 242-6965 or jdthbail@aol.com
